## **DETAILED ACTION**

### ***Response to Amendments***

The amendments and arguments from Applicant has been carefully considered.

### ***Claims Presented***

Claims 5, 8,9,11, 12,13 are presented.

### ***Election/Restrictions***

Upon the study of the claims, they have been discovered to be subject to restriction through election by original presentation.

I. Original claims 1-11 had been directed to access authorization – class 713, subclass 200.

II. Amended claims are directed to rewriting of authorization data with another user's authorization data – class 713, subclass 185.

Newly submitted claims are directed to an invention that is independent or distinct from the invention originally claimed for those reasons

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

No claims remain in the current situation.
